"

Left home 330 in the afternoon for Rexburg. And left Rexburg 1055 in the evening for Salt Lake City.

" 20 Came to S.L.C. 8 o'clock in the morning and had things arranged for my journey to Denmark.

The Temple Building is fine and beautiful, and so is the Ground around it. Lawns, and flowers, and trees, in abundance, and everything kept so clean and nice.

S.L.C. have many magnificent buildings.

" 21 Left S.L.C. 710 in the Morning Fog, and Smoke, is hanging over the

Aug 31

August 1903

Lake, and Black Clouds over the Mount-
ains to Ogden, and left Ogden
at 8 AM from Salt Lake, and
from Omaha, we had not Travelled more
than 30 minutes, before the Mountains
were plainly, were standing Immediately
next right close to the Track, but the
farther we in the Canyon, are more
nice homes. at 10 we passed a place
where there were large trees, here
is for the first time we saw
a Hotel, and some dwelling houses
for a of Grain, Fine and Stone,
Weatherbies, We are Ascending
grade, now 13 Passenger Cars on, it is
the Center, the curves is so sharp
we can sometimes see the rear light
as, from end to end.
At 11:15, passed Weber Station, 37
Miles from Ogden, here it is Narrow
we were on the top of the Mountain
Little Rolling as far as can be see
covered with Grass, by to big Pine
A small part of Forest growing
At 11:25 We passed the Line of
Utah, and Wyoming, there is a Gate
standing to mark the Line, and
we are at Evanston, the first
of Latter Day Saints, it is a large
many fine Buildings, about 12
to Wyoming it came through
it took about 5 minutes, 120
Carter At 117 miles from Ogden
vation 6057. Rain in the Eft
Crossed Green River at 4 o'clock
Rock Springs at 5, where there is
coal mined, and have many Fine
Buildings

Aug 22 It is said that we are at "Lexington," 16 miles from Ogden, & Evanston 77[illegible] We are [illegible], and running, [illegible] at 8 o'clock, we [illegible] Rolling Prairie wherever we look, with Farmhouses and Stock, came to Omaha 9 30 in the Evening, where we stopped to rest Morning.

23 Left Omaha 8, and crossed Missouri River into Iowa, a fine Country with little Patches of Trees here and there, Corn and Farms. Plenty of Horses, Cattle, Sheep, and Hogs. Inland the Missouri about 30 ms the River, we came through a part of the Country made like waves, a body formation standing hundreds of feet high.

(Remarks) Nebraska have immense Prairies, I could see no way to cultivate them, but the state of Iowa is more inviting. There is large Cornfields and everything so far as can be seen for small farms, some Farmers have planted among Trees, and their Homes, came to Chicago about 8 in the Evening, to Hotel Majestic, it has 200 Rooms, and is 10 stories high. B. were the 1st Floor, The Streets is thronged with People and Vehicles, and Factories &c, and from the highest Buildings to the lowest (we Mayan, we it is hard for them to carefully enough, it is the same in the Cities, where people live to Often, it is very crowded, The Weather is fair but Windy, Chicago is called the Windy City.

Aug 25 Left Chicago 2 o'clock in the afternoon, & Came to Buffalo 8 in the morning,
We took the Streetcar, and went up to the Niagara Falls, we were led into a Building, where from the 2d floor we could see a long way off, and see the River coming Tumbling along, & pass on the rocks Big Boulders towards the Falls,
Then we took the Car, again and crossed the River stopped of about an hour, & the Conductor told us, we stod 360 feet above the Water, the Rock was very near perpendicular, but there was a Railing, we then boarded again, and went to Niagara Falls, we have a magnificent View of, of Canada, Canadian Horseshoe Falls, & American Falls, we crossed the mighty River again, & came to this side, between River and Mountain, There were just room enough, so that we were limited to tracks, for Electric Cars, we came on the one next to the Water, about as near as Powder Indge 6 feet away from the Water, and 3 stories above, at little distance below the falls, we passed what is called the Whirlpool, which is almost as near the Falls, & have also the Canadian Falls, & have also the American Falls, under the shadow of them, and it is wild, but so wild, and destructive Water & have never seen, for in places it seems like it was boiling, and one cannot tell which is the Stream from,
Left the falls 2.20 and came back Buffalo, at 3. Left there 3.30, and for

Aug

Through a large City called Ne[illegible]
all night, and [illegible]
Morning of the 27 aboard [illegible]

27 New York like Chicago, is one
[illegible] streets, and Lives [illegible] to g[illegible]
in Common Restaurants, Meals 25
and yet good, I went into one, [illegible]
time, it seemed to me there was
[illegible] eating there, [illegible]
Weather is Cloudy, and foggy, rain
little, We are stopping on the
with which we have to sail to
River, it is a New Boat, called "C
wen Wealth," as near as I can
over 400 feet long, 50 wide, a
steam engine of 600 H.P. to the Mate
5.30 in the Afternoon we left
York for Fall River, we had
3 Rail Road Bridges, We stop
a place called Newport, & ma
ing.

28 Came to Fall River about 4, [illegible]
ner about 7, Noticed from the
deck, that it was only 9 feet
Water, aft, Came to Boston
found a Board and Lodging ho
is 50 a Bed, and 25 a Meal.
Boston is an old City, and
I have seen of it as much to
Effect, the streets are crooked,
Granite Rock, is here in abund
Gray and Coarse, used for Doors
and same places for Pillars, [illegible]
are Paved, partly with Rock,
partly with Bricks.

29 At 11 o'clock we boarded the
er, "Republic, and having

Aug

left Le Harbor, it is a fine Harbor, with
no accommodations, everything about
in ruins, at 3 in the Evening
came down, Weather fine, a Number of
Steamers passed to & fro, to the South

30 Light airs & Calms, Weather fine
very pleasant, At 10 a Steamer
left Cape Race, West bound, at
1 P.M. a Steamer eastward bound
passed us, at 3 P.M. a Steamer
a Sailing Vessel, East bound, 3 30 a Sail
or to the North, East bound, Blew fresh
gales in the Evening, and had a
little rough.

Sept. September 1898

1 Sea heavy, few are sick, but it is not
very bad, Wind about Northwest,
The Sailors tell us, that we are on the
banks of Newfoundland, plenty ac-
cording, fine days, Weather very fine,

2 Morning, Same as Yesterday, passed
1 30 a Steamer to the South, Eastbound,
3 15 another Eastgoing Steamer to the South
& one Sailor a Westbound Steamer,

3 Weather fair, Wind moderate, West-
bound Steamer to the North,

4 Morning nice, Seasickness seem to
be over, 10 Forenoon we meet a West
bound Steamer, in the Evening met
another Steamer, to the North, & then

5 Morning fair, Weather, passed a West
bound Steamer to the North, close by us,
are in long distance to the South,
At 11 30 Island Cape Race in the
offing, at 2 30 about distance from
the Mainland, we passed a Light ves-
sel, standing on a Rock, about four miles

Sep. | diculer, few places stopping at on the
coast of England along the coast
Outside Eastern, we came to
Queenstown Neale stopped and a number
more came, and took the Mail a
some Passengers.
One of the Sailors died this Afternoon
he was working and dropped dead,
was 56 years old.
6 Sailing all Night and this Morning
saw the Bishop Rock 9 A.M.
Tuesday, and to Liverpool 7 P.M.
the Steamer 10th, and came to Anchor
Remarks The Steamer Britannic belong to
White Star Line, is a fine Vessel, and
good Sailer, is 600 feet long, 65 wide
Twin Screw, capacity 15,000 Tons, Com-
manded by Capt. J. Martin, there are by
estimate, I should say from main Deck
the Hold is 18 feet, Saloon 30 wide, ex-
tended Glass, one some parts of the Ves-
sel is 2 Rooms above each other and the
main Deck, she is one of the Largest
Steamers, of the White Star Line,
thing is very good, 3 good meals a Day,
many different kinds to be served, each
room Rooms for 2, some for 4, has a cup-
ard the length, Washing as White as
ble, in each Room, are Looking Gl
Bowls, Wash Dish, Chamber Pot, Bo
and Glasses, for Water to Drink, F
for hanging Coats, and Coats &c for
everything we can desire, ——

Sep. 4 Septemper 1908
Hotel on Corner of Nelson and Hoffman Street,

7 Went with others to the Office of the Latter Days Saints, and bought their from Liverpool to Copen.

Left Liverpool 3^{30}, came to Grimsby 7^{30}, Went onboard the Vessel and had sail with to Copen, she left round 12 in the Night

Name of Steamer, "Batavia"

8 Morning Weather fair, Sea smoot

9 Came to Copen in the Morning 7^{30}, and left 11^{45}, Trough Kolding, Fredericia, Veile, Horsens, Skanderborg, Aarhus, Randers, Hobro, to Aalborg, 9 in the Evening.

10 Left Aalborg 4^{45} in the Afternoon, came to Aggerstd 7, and went down to my wifes Brother, who lives little Southeast of Aggerstd. The Mowing, and Farmers Began in their work. They say it have been Raining for about a month.

17 Weather fair in the Morning, had got

Remarkable Days and Winds.

[illegible] Wind, light head sea.
[illegible] Northerly gale, to fresh Wind, high rough sea.
[illegible] Northeast Wind, rough head sea.
[illegible] to Fresh [illegible] Wind, rough head sea.
[illegible] to moderate East Wind, rough to moderate head sea.
[illegible] South to West Wind, smooth sea.

September 1878

Yesterday & today to have the Bees overhaul

21 We got the last Brandts honey house done Beans Harvested, and Comenced Bees and Honey Harvest

upward. Our Theb 20 were destroyed by the News paper says it was South part of Cantron, by Tyfoo Comparing these, most of the houses, and stock amounting to some over 300, were saved, but 11 were destroyed, or perished in the flames among them were 17 Boats, of which one had over 1800 crew, 1 Crew is to be forgoten, and perished. the crew is not yet known,

23 I visited my cousins in Norcross, also a Son of Jason Hoff.

24 Went over to Black Eagle, little North of Kingsbeer is a good place for attack, are canvasing all the little Valley, along the little River called Virginia Fac, from the Norcross, and Fishers, and South East to Augusta where is some of the best Land

that part of the Country, 3 Churches
be seen, Rock, Agatted, dont know the
name of the other.

The Rye stands in places 4 inches
here in some places, but the
very Promising.

On the Graveyard I found Names of
persons I have been well acquainted with
while young. A sad feeling came over me
by reflecting, some of them much
younger than I am, but here they rest.

The Graveyard are much larger, and
many trees planted, and many graves
with head stones, by flowers and ornaments.

I went from there down towards Bethel, Northeast of Springdale, in a Grove of Pinetrees, Chestnut Oak to 4 ft. Diameter, I found a Rock, Dogwood, Laurel, Sassafras, Hickory, Ash, Poplar, Beech, Maple, Locust, Persimmon, Sourwood, Sumach, Elder, Blackberry, Huckleberry, Grapevine, Ivy, Moss, Ferns, Wild Flowers, Wild Pea vine, Wild Sweet Potato vine, Wild Cucumber vine, Wild Gourd vine, Wild Bean vine, Wild Pumpkin vine, Wild Watermelon vine, Wild Muskmelon vine, Wild Squash vine, Wild Cantaloupe vine, Wild Strawberry vine, Wild Blackberry vine, Wild Huckleberry vine, Wild Grapevine, Wild Ivy vine, Wild Moss vine, Wild Ferns vine, Wild Flowers vine

Sep

It caused a very peculiar feeling, to wander around on those very places, where my foot had rested before, and feet that were acquainted, with my dear wife, and we went part of the way together, and also 38 years, to walk over those ages, and O how changed everything is, that can better be imagined than described,

25 Miss Rogers birthday, I was at a party in the evening, several of the Neighbors were there,

26 Went to Albany, stopped on the Fair ground,

27 Attended Sundayschool, and Meeting,

28 Took the Train to Stuyvesant to pay a visit to my Sister and her family, I have especily an old Lady, she and I were well acquainted with them, she was living by the Graveyard, where they are buried, I did not meet her at the Graveyard) and they told me that I could have me at there, and found their House, they had four Children -, 2 of them in Albany, but she did not know their Address, their place is in the hands of strangers, so there were no one to look after, and I went back to Stuyvesant Landing, and went with the Freight to Albany, where I came to about with the 5 o'clock Train,

October 1908.

Oct 4 We went with Team to Catskill, to visit Martens daughter who live there, Jenne and I went from there 2 miles to Greenville to see an old woman, Sister to my wife Mother, but she did not know anything about where her Sister was born,

Oct. said she (wifes Mother) were born in Sw.
Byggarde - Mill - we went from there to
Ed. Bakers, where we stayed over night, there
my wife Sister, were staying there for a
short visit, we were very well treated
while there, as all the Saints, we
there visited, are. We left Ed. before we
started during the Night.

" 5 On the Morning we went on foot to
Solye, there by Rail to Ed. Winterton,
where we found Br. Chas. C. Berger,
from Ogden and Utah, here also found
a Lady, (Inger Marie fra Rakke), a very
good friend of my wife from younger
days, and here we left Ed. Winterton
where another Sister and Friend of
10. her and Husband are in charge of
the place, he received us well, but she
was not home, nor would be that day,
we then went back to Ed. Winterton,
and took the Train to Ogdenstad,
7 and B. Ogdenstad to Land Mannefare,
9 Made Plans for Dinner to Brandfa-
ders Grav.

10 Went to Aalborg to attend the Confe-
rence to be held there, I went to a Meeting
held in the Evening, an listened to some
good Report. from some of the presiding
Brethren of the Aarhus Conf.

11 Attended Meeting in the Afternoon,
where more Brethren Reported, and
Br. Rasmussen, the President of the
Mission, spoke and showed clearly
the Importance of same.

I went to the Hotel and took Supe
per, then back for the Evening Meeting
and I got sick and had to go back, or

Cat

Abbey

go to bed at 9 o'clock. I was very sick all night, and the next day went back to bed. This is a small island of 2 miles in length, it was designed, in 1752 by the Governor of Bythaven and President General Johan Ranzau & one of, and Clemens who was a Dane, were took prisoner, sentenced for treason and beheaded, he could appear to the time I was in the Soldiers service, a great change, there is applauded in all directions, but to the Northern Keys it could not be, down the River (Fjord) to the southeast where the Light and Post Office, and many big Buildings are to land, were nothing but Gardens, and Backgrounds, of very little value. I have been extended to the East, a very long distance, from the high hill west from Bergen, a vast amount of dirt have been taken, some for filling, some for Granite, Millions of loads have been taken to the Northeast where along the Fjord, there were no Buildings, stands today great Cement Factories, where large cargo ships to and load, and this stone are it was brought to other Countries

I also visited the blue mine of Kongsberg with others and took a ticket, I walked over a certain little spot of ground, where fear of our Companions our place, to stand and learn to handle the Guns, and other things, I walked over it, knowing that on that spot a land little shot, I could not set my foot to, any blow out of the [illegible] been there before

Oct the place is like it was, but everything have all changed.

The Kings Palace, if it can so be called, for the Figures on the West front is Broken, the Roof is Gone.

Some Spitalfield, a big Building as soon as Called a Palace, over the Door stands the Figures 1623, it is a saying, that it should go Better to those Poor Souls, but Mr. Woodward, and that is their Will, Building, but our Language Names is not Spoken with Respect, nothing is said about the Poor and Blind.

16 Went up to Blackheath, and saw Hans Nielsen Gathe Famous Broder, also J. S. Jensen Westenhav, Anderses Sisters Husband. came back to Ayer-stad, and in the Evening O. Lassen came from the Conference i Aalborg stoped with us Night, and next day we went to Ride in the Parc.

18 Sunday, Went out in the Afternoon to see the Graveyard, it is very beautifull, with fine Ornaments, Flowers, and Trees. It is joyned by a nice Park to the South.

20 Went back to Aggerted, Wrote Letters and Cold, Our Children Helmer Sofy, and Holy, I saw a Boy about 10 years Reading a few Pages in Book, he told me it was a present to his Father on his Birthday,

Frederikshavn, is not a very large City, it is mostly Sand, East to West, and long South and North, lies close to the sea, and have a good Harbor many Boates, of every Kind, Damnar Kjøge, is

is the most important Street,

November 1908

Nov 9 Went to Skagen, left Frederikshavn 9 h, in the forenoon, the following Stations is on the Line, Elling, Bønnerup, Sæby, Nørre Ajstrup, Aalbæk, Brønderslev, Hørby, Dybvad, then Skagen.

It is apperently a poor Country, much Sand, all along, but the farther North the more Sandy, between Hirtshals, and Skagen, are many little Sandhills, in Holmsland Klit with Trees, (Pines) it looks like Flensborg Egnen,

Skagen, lies on the Northernmost Part of Denmark, the main and probably the only Place, are Fishing, of late years it have been improved considerable, Buildings is put up in a modern Style, Fine Roads, and there is great Improvement on a new Pier, made of Stone - Provided with Lights for the Fishermen, there is a Lighthouse on the Point, or nearby so, by Examination and Map, I went to the top, of it a long distance can be seen from there,

Between Frederikshavn, and Sæby are the two Stations, Bønnerup, and Ålbæk,

Between Sæby, and Ågersted, are Nørre Ajstrup, Hørby, Dybvad, Brønderslev, Hjørring,

Some of the Stations above Ågersted, and Brønderslev, are, Ravnsgaard, Dronninglund, Kvols, Vilstrup, Sandvig, (Between Vilstrup and Sandvig, I was at once from the car counting 7 Windmills, (small ones) Vadskær,

Holger Drachmann, at noted Danish man, poet and something, had his

Skagen several times, but could not to be married there, his belongings also not brought in — as Ships to Skagen, and anchored in one of the highest Sand-hills close to the sea.

19 Went to Viborg to see Jens Jensen, the Gensarbog.

Viborg, is one of the oldest Cities of D——— and located on Rolling Land, which causes the Streets, and the one also Crooked, there is a Pond beside, near the Center of the City, called Søen, or the Lake, Jail, Cathedral, and 10 Churches, the reason for it is not larger, is that it not connected with the Sea.

The Country from Viborg to Randers is very undulating, and but it is not on account of that, as the Country but looked although it was not for cold reasons, for a Distance the Road for the little Forte de Vadet, through which a small River called Langaa flows.

From Randers to Aalborg the Country look better.

20 Came back to Aarhus, I visited with Mathias Thaae and Wife Margrete, there was in Charge took his book, and showed me by Name, and Number, just where it was, & took a small Book from her Drawer, to take with home, & the Mother her daughter is buried with her,

22 Foggy Rain — now and then

26 Have been invited to Bid Good by to old friends, in Veirsaa, one day in Ingerslev, the 26, in Evening the Pond always this is with it, or not to again in mortality,

Dec 3 Ship Marcia. Sent book, one letter to and 3 sent
Steward to and had a short talk with Gretta
Hansen Brother, in Florence hjold. her Sister
in Law and Children and Andrew Co
her sister in Westchester.

6 Rain all day, in the evening we had
a fair of the Negroes, and dances
from Ostoft were out here.

7 In the morning left for Antwerp,
at 6 left Sadler for Copying 8 in the
Evening, came to Sadler's, and stopped to 5, and came to Calais 8 morning

8 Came to Calais, and left there came
Dover 1 o'clock, with the Steamer Mid-
day, saw Blind people ran.

10 Came to Grimsby, 8 in the morning
Left 7, came to Liverpool 12, (noon) Came
down to the Customs Jack Hall, was
there a good deal to stop, on account
first Class, came to me.

11 Boarded the Steamer, "Baltic" of the
White Star Line, about 11, she left her
moorings at 12, on account of her being large
and it being Ebb, she had to be pulled
by 2 small Steamers, to get away
from the Land, and by 1 to assist
down the River.

Liverpool. Is that great Commercial City, for
every Nation trade, and their flag is
waving from. Must tell, it is not a
good time what kind of Trees in town
be seen, running on the Streets, if
is a question, if there is anything
there ever, not the ever, Disturbed in
going down to the wharf, and it is very
hard for the with Handcuffs,

bright to pass each other, there is many
very heavy Storms, most of them with
Hail, Every now and then we pass
Some immense Icebergs the highest
which height the largest have yet seen
Always Accompanied by heavy Hail Storms
Shows us to be near the Banks, this
Ground from, must be for protection
over the Banks, Hail stones, which some
times fall there,

At 4 P.M. the sun clear of land and
sunk from. Our Consort Steamer
Scotsman (the sea Breeze) standing
together leaving the Irish coast, in sight
a beautiful sunset, Steamers lights
all burning, to their Mast heads which
they keep up all night,

There is many Lighthouse along the
Irish Coast, some of them flashing, &
some of them - periodical, varying from
two seconds, to about 5 minutes,
except to Fair head, where the coast
is narrow, there is also "Bayonet Rock"
Last flashed, with light, The Captain
was Dressed and all hands, and Ready
Ready accordingly,

12 Morning Weather fine and calm, 8
Steamers in sight at 8, where we took from
passengers, and mails, Same passed
Rounded the Head, Ireland to which
runs a Ferry,

Passed also a very small Vessel, it
a fine Brigantine Boat, then it not
Below us the Water,

In the afternoon the Wind was up
and foggy, at 3 o'clock we left the

look at old Ireland.

13 Wind high, and sea rolling, heavy, little snow fell in the morning, afternoon the sun came out for a short time between the Clouds.

14 Morning Wind Southwest, but very light from yesterday evening Wind, all day Wind about Southwest,

15 Morning very cloudy. Wind Southwest, sea rolling Windy all day, Land in the Evening.

16 High sea and Wind, at noon the Sun set on our Larboard Quarter, for the last 24 hours the Wind has only had half a foot. Today

17 Morning fair, Wind about East. at 8 afternoon a Steamer West bound to the South to us, came Northerly course, I see a face to us, we will pass from us about one hour.

18 Fresh Wind all day. Cloudy most of the time, but not foggy.

19 Sweet as ever day in the morning, Weather fair, Wind Westerly, Sea somewhat smoother,

20 Weather fair. Wind Westerly. Sea smooth,

21 The Steamer have been Anchoring during the Night, it was dangerous to sail, started to sail this morning, arrived to New York 10 forenoon, Landed about 11. it took some time before I got my Trunk, came to a Lodging House about 1.

Left New York 6th in the Evening, the Train being very crowded

"Baltic" This Vessel belong to the White Star
Line, it is one of the largest of the Line
is 725 feet long 75 feet wide, and
nearly 50 feet deep from main deck to bot-
tom, capacity 24,000 tons, 4 shaft 2 Pair
Reciprocating according to the information
we can obtain, she have two first
class dinning room seats for 400 persons
second class 300 third 1,000, belonging
to one Engineer & Pilot.

The Cabin Accommodation is 70 by 60, the Line
is 70 by 20, & she have very comfortable, one
Saloon seats, Over the Cook Accommodation
Library, whose floors are the main Deck,
there is a place 75 by 45, where second Class
Passengers can have meals, and a part of
a little room covering the Stairway, about
22 by 16 feet, then there is a place on the main
Deck, where there is nothing but Room for
to get baggage up and down, then comes
a Room or Smoking Room, for Second
Class Passengers room 7 a Place
there, 200 feet long by 50 wide, Below
these are Passengers accomodations, and for
Cargo other things, the top of these
are so wide as the Vessel 75 feet, on the
Room exactly 50, on the top of that
was another room about with but a
small border, that first class Pas-
sengers would promenade upon it
Should Judge 275 long,

The Lines Provided with Ba Cabin
Bed of first class passengers 141, of 2nd
162. & Third, 326. Steward Pantry &
everything convenient and Suitable
for the Passengers,

Ship Log.

Remarks on Second Week.

Dec

On account of being parties to the
Contest, were detained at the Depot. at
Council Bluffs until Morning when we
started New York the Stars
& Stripes waved from the Top of
the Forecast, and it caused at first
of joy, that it had again come back to
North & reminded us of our Country.

---

21 Left New York 6[15] in the Evening, the
Train was very crowded, had a Chance.

22 Morning will be known as the Even
Weather fair, for a part of the Effort we
are passed along Lake, commenced it
was At Clear, 3 o'clock we came to a Vil-
age, called Wenger, something of a Town.
Here we crossed a River, then changed
Cars, and left it, changed cars 3 in the
Night, and came to St. Louis 7[30], in the
morning.

23 Left St. Louis 9[30], crossed the Missouri
River 10[30], Weather fair.

Came to Kansas City 5[15], there I had
to change Cars, but had it done and
found my Train, and almost as quick
as I had sat down it moved out, 5[45].

24 Snow on the Ground, it is Prairie Coun-
try as far as we can see, we are told
that we are in Colorado, a farm house
here and there, with miles between,
Land of the Land is more Rolling, &
I think we are nearing the Mountains
so far as the eye can see there is few
houses, but very few between.

10 The surroundings is of a more hilly a
appearance, Weather fair, drawing to
a close

I saw a band of sheep feeding in a yard, it made me think of home.

To all appearance we must be near the Mountains, it seems like the farms now are better because her is more wet ar Swamp land, I saw another band of sheep.

I can see the Mountains now, and I never was so glad to see them as to day. came to Colorado Springs 1145. Passed another Train, and 12 a clock we were on the main West, again. Came to Pueblo about 115, it seem to be a large place here is Ironworks. About 2 we passed a signboard, on which stood "To Ogden 632 miles."

25 Came to a place called grand Junction 330 in the Morning, and left 415, and Grand River 5 in the forenoon, and left there 915.

From Grand River ~~[illegible]~~ West a long many hills, a good deal like Idaho. Through that Canyon ar many Canyons, all Castle Gate Rocks stand on both sides, close to the Track, several hundreth feet high, perpendicular almost, Weather very fine.

Came to Ogden 430 in the the Evening, and left same Night 1210, for the East,

26 Came to Pacific Junction, left 715, came to Plattsdale 845, Left 930, came to Green River about 10, and there 12 all night.

Jan 1 Sun and Cold first 9 days of the month
12 Last few days weather cold.
14 and 16 Windy and rainy little.
20 Sunshine, last few days Weather mild.
29 Snow and Cold Weather
31 Ten inches of snow on the Ground.

February 1909

Feb 1 Sunshine and mild.
9 Cloudy and Cold. Snowing
13 Heavy snow
22 Freezing hard.
27 Weather mild.

22 Hauled the last Lucern. Therm 90
26 Little Rain in the Night
28 Watered Potatoes with Gasoline Engine
31 Therm. 87

August 1909

Aug 4 Watered the whole Garden. Ther 84
9 Very warm Therm. 90.
11 Hoed Corn Rye and Potatoes Grain
14 x Last few days very warm. Cut the first
23 Rain in the morning
Watered Garden
27 Frost in the Night. Potatoes Hoed
31 Last days of Month nice.

September 1909

Sep 1 & 7 Very heavy Rain
9 Fair Weather. Turned the Wheat
11 and 12 Rain
13 Frost in the Night
Started to cut Lucern
14 Raked and Bunched Lucern
16 Started to Rake Lucern
17 Heavy Wind.
18 Got the Last Lucern home.
20 Started to haul Corn Stalks. Weather
cloudy.
21 Got the Last wheat home.
22 & 23 Got the Oats home.
28 James started to Disk on the
Northeast corner of my Land

Oct 1 and 2 Sowed Wheat
2 Killed a pig
3 Thunder and Rain
4 Started to take up Potatoes
7 Little Snow in the forenoon
8 Frost in the Night
9 Got the last Potatoes up. Nights
Cold, Frozen Water in the mornings
+ Had Washing done, Weather fine
18 Washing
23 Hauled Coal of the Ground part of the Ground.
29 Weather very fine
30 Snowing all day, Ground covered

November 1909

Nov 1 Windy and Chilly
5 Last days fine, changeable Weather
12 Snow — sometimes last week
15 + He and wife went to Sojourn
18 Left Sojourn for home.
Snow on Ground, Windy and chilly
Month ended Cloudy and Chilly

December 1909

Dec 11 First part of month foggy Cloudy and Cold, Frost not to hard
16 Sunshine but cold Wind from the North
19 Sunshine, Weather fair but hard Frost in the Nights
27 Cloudy, Snowing Little.

January 1910

Jan 1 Heavy Snow with strong winds from the North, - heavier than

Jan. I have seen Apricots come to Idaho.
2 Sunshine in the Afternoon
7 Morning Frost not to hard.
11 At 4 Afternoon Ther. 26 above Zero
20 Thermometer 30 above
21 " 40 " at 12 oclock.
23 Ther Very warm
29 Morning Ther. 10 below Zero

February 1910

Feb. 1 Morning and Night very cold,
North Wind. A bad Day
2 Sunshine. Ther at Noon 30 above.
16 Made Cloudy and Foggy Weather

March 1910

Mar 3 At the beginning of this week the weather changed for the better
5 Weather fair.
" 15 Nice all last week.
" 31 Weather fair except last days of month. which was colde.

April 1910

Apl 4 First days cold
" 5 Weather nice working in the Garden had it plowed and fertilizing Trees and bushes
" 7 Joseph started to sow wheat
" 8 Weather warm
" 10 A little rain in the Night but was ther very fine
" 13 Sowed Lawn seed. Cabbage and several other Kinds.
" 14 Little snow on the Ground in the morning. Windy and cold all day.
" 19 Sowed Oats wheat and Oats.

Apr 20 Weather very nice
" 23 Planted and Planted a row of Cabbage
" 28 Sowed the last Oats. Watered Lucerne

May 1910
May 1 Weather Cloudy and chilly Frost in the Nights
" 4 Rain towards night
" 5 Raining all day
" 6 Weather very nice and Good.
" 9 The Water came on the head Ditch
" 10 Started to Water Garden
" 11 Started to Water Lucern
" 14 Weather have for several Days been very warm and good.
" 16 Sowed Oats where we have plowed up Lucern and Levelled.
" 20 Little Rain
" 23 Replanted Cabbage, last in the Garden and watered everything.
" 24 Started to hoe Oats & Lorenzo
" 26 A light frost in the Night

June 1910
June 1 Watered Garden
" 2 Hoed the last oats to Lorenzo
" 3 Little frost in the night.
" 4 Started to Water Grain
" 19 Me and Father Left for Logan to do some work in the Temple.
" 27 Weather have for some time been warm.

July 1910
July 2 Came back home from Logan.
Weather very warm. Crops looking well

Remarks on War. About the 21st of July the War beginned to go — Until the Germans they started their main on the 21st of March and drove our Forces back many miles taking in much ground. They pressed them hard but were not able to accomplish what they desired. and the Americans were hurried across as fast as possible. and from the above

Sep

mentioned day Things turned against Austria and King Ferdinand on battle. And from July 15. to Sept 30 the Allies captured 5,548 Officers and 48,494 men. 3,869 Cannon and several thousands Machine Guns and many mine throwers.

Bulgaria surrendered about the first of Sept King Ferdinand gave up the throne and his Son Boris ordered it, and in about 1 month he resigned

Turkey held out to about the last of Oct. then they laid down their arms

On Nov 8 they Austrians surrendered and firing ceased 3 o'clock afternoon.

And on the 11 of Nov. the Germans surrendered firing ceased 11 o'clock forenoon. All have surrendered unconditional

The rulers of Germany Austria and Bulgaria have all abdicated

Unusual Cold, Extra Day Spring Was Delayed in Summer Reported.

The annual summary of Utah's climate for 1925, issued Monday from the local weather office, shows a year with wide departur from the weather conditions that generally prevail.

January, 1925 was on coldest of record though followed with exceptionally warm days. The winter and early spring months were dry with the season opening with the handicap of a deficiency in the snow on the watersheds and a poor outlook for irrigated crops.

However, the year proved to be one of the best in the state's history from an agricultural standpoint. The record shows that June received more than three times the average rainfall for the month and that all records were broken for the number of rainy June days.

Especially in northern Utah, August and Septe[illegible] exceptionally wet mont[illegible]

During the [illegible] 1925 norther[illegible] the same r[illegible] over the [illegible] year dep[illegible] belt, dep[illegible] fell into a [illegible] might be grown without irrigation.
